**EVELUX / SECTORAL MISSION**

*It becomes an inevitable need to provide safety and order in rapidly increasing vehicles and pedestrian traffic. Evelux which set out with this consciousness, always took inspiration from the necessity of the sector. With its principles which are “functionality in design”, “quality in production” and “trust in delivery”, Evelux has advanced by increasing its success in its leading position.*

**EVELUX / FUNCTIONAL ROAD SAFETY**

*Providing safety and order in vehicle and pedestrian traffic, to become manageable from private and public institutions to individuals. It is also important that the products and systems used for this purposes are functional as well as practical. Evelux, manufactures systems that provide functional road safety by adding practical extensions to its products in every design.*

## PVC - TPE Cones

Application

- \* with premium quality stripes; high visibility
- \* integral carrying handle and chain hole
- \* lamp&signboard&chain can be attachable by cone adaptor(126 A)
- \* with stackable feature; min. storage space
- \* broad angled base provide wind resistance and stability

- \* better visibility and long life color fading with UV protected bright orange color
- \* operating temperature range: -20°C/+60°C
- \* wide range of use: all warning-working zone and being managed dense traffic flow; including roads, construction areas, residential areas, parking lots and etc.
